

TR1200-DT7

Treadmill Desk

The TR1200-DT7 is our mid-use treadmill desk built for those looking to walk for longer periods throughout the day or use by small groups. The desk lets you easily and conveniently adjust the desktop height with its electric height adjustment feature and includes memory support for two user settings. Additionally, the TR1200-DT7 is Bluetooth-enabled letting you wirelessly sync and track activity data with apps.
