

FREEWAY ECO

Freeway ECO

Product Description

Freeway Eco combines cardio and resistance training for an all-in-one superior workout.

A manual and user-defined speed treadmill, this performance treadmill is designed to increase resistance and push limits with its built-in magnetic braking system. Built with the same quality you would expect from a slat-belt-based technology to provide an ultimate training solution.

Features

Slat Belt Design

LED Screen

Silent Operation

Durable Construction

Magnetic Resistance

Technical Specifications

CONSOLE		TECHNICAL DETAILS
