

Treadwall® Model M4 Pro

The M4 Pro is designed as a compact climber with a minimal footprint. It is engineered for all ages with a 4 foot wide by 8 1/2 foot high climbing surface that encourages full-body movement in a small space. The wall's rotation is powered by the climber's weight - no motors are used. The angle of the surface is adjusted by an intuitive hydraulic system that allows change to a greater overhang while climbing. A simple rotary control adjusts the speed to suit the user, and a patented auto-stop^(tm) mechanism matches the movement of the wall to the climber's movements, gently braking when the climber's feet are at the bottom panel.

SPECIFICATIONS:

- Weight: 820 pounds.
- Construction: Steel framework with custom-machined wood panels.
- Placement: Inside standard - outside with exterior upgrade.
- Width of climbing surface: 4 feet.
- Total length of climbing surface: 19 feet.
- Number of possible hold placements: 190.
- Angle range: positive 5 degrees to negative 20 degrees (overhanging).
- Mode of control: Electro-hydraulic braking and resistance.
- Electrical requirements: 12 VDC (1500ma) Plug-in transformer (supplied) or battery used.
- Electronic Display: Measures distance (feet or meters), time and calories. Time and distance goals can be pre-set.
- Color - frame: Beige is standard. Custom colors available.
- Color - panels: Leather Brown panels are standard. Optional Natural Birch panels available.
- Holds: Set of 40 custom training holds in 3 color groups, with complementary 13 ladder Line^(tm) holds.
- Maximum hold size: 2.5 inches high by 6 inches wide.
- Floor Mat: 6 feet x 4 feet custom mat, 1.25 inches dual foam, locking loops, black 14 oz. vinyl cover.
- Warranty: 10 years on structural parts, 1 year on moving parts. See full warranty for details.
